# Founders Message

No region on the earth is growing or expanding its role in international affairs faster than the European- Indian Community and the Indian Sub-continent. Indo European Business Forum (IEBF) is an initiative dedicated towards building bridges of understanding between the European countries and India

- **MR. VIJAY GOEL, FOUNDER, IEBF**

There is great potential in trade between India and the European Union member countries. Increased cooperation between the two economies has had a rather positive impact on sectors like energy, security, and research and innovation. Mutual investments have increased drastically in recent years. At IEBF, we endeavor to reinforce the strategic partnerships between India and the EU to strengthen economic and cultural exchange.

- **MR. SUNIL KUMAR GUPTA, CO-FOUNDER, IEBF**

---

Established in 2007, the IEBF is an independent and impartial body actively promoting two-way flows of trade and investment between India and the EU member countries. It is a non-profit, privately funded, non-governmental organization. Its aim is to encourage, nurture and promote bilateral business, mutual understanding and friendly relationship between industrial, service, and business communities of India and Europe. IEBF has taken a significant step forward in the direction of achieving its mission by opening a chapter in India. The India chapter would further synergize the efforts of the UK office to take its activities to even greater heights.

Indo European Business forum is an open forum comprising like-minded people who believe that "India can offer strong and sustained business opportunities for European Union countries". IEBF members comprise leading business personalities and professionals from both India and EU, having excellence in the field of business, finance, real estate and art, to name a few. Our advisory board consists of people who are determined to create a progressive world.

## Our Mission

Strengthening India-UK-EU partnership based on trade, cultural cooperation and socio-economic reforms. To promote and encourage UK and European investment in India and vice-versa, thereby contributing to the development of India, UK and Europe.

To act as a facilitator between the EU, UK and Indian businesses and provide quality and superior services to its members enabling their business to flourish.

## Our Vision

Creating better tomorrow by establishing progressive and strategic partnerships to overcome international and regional challenges To develop trade, commerce, and economic co-operation between Europe, UK and India by providing a channel of communication and interaction within the business communities of both nations.

To create awareness among Indian, UK, and European institutions by providing them information about the scope of investments and the relations these nations.
